This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Information and numbers for the current fire season, including both active and inactive fires, are supplied from various sources. The data is extracted from operational systems and is subject to change. The information is only accurate for the current fire situation, and therefore should only be used for reference purposes.

Accuracy: Once the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general reference purposes only and may not be accurate or complete because this are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
