

**FIRE NAME**

R91947 Hold overs

FIRE SIZE:

various

FIRE STATUS:

Being Held

RESOURCES:

There are currently 21 firefighters and 6 helicopters working on these holdovers from 2018. In addition there is a 14 person Incident Management Team and 6 helicopters shared between these holdover and wildfire R90376.

UPDATES:

Even though the cooler weather and higher humidity have arrived, the crews continue to find holdover hotspots deep in the duff layer. We anticipate to find these holdovers throughout the summer.

All known spots or holdovers have been actioned by BCWS crews and are being held.

Over the weekend, crews will take advantage of the cooler weather and suppress holdovers as they are found.

FORECAST:

SYNOPSIS: An upper ridge over the region drifts eastward, and an upper trough moves onto the coast by early tomorrow morning then through northern regions of the Fire Centre tomorrow. As the ridge drifts eastward it also starts a slow collapse, allowing for temperatures to start cooling today and humidity values to start trending upward. This will continue for tomorrow, with the north and coastal sections aided by the development of some patchy convective showers later today, and into tomorrow. Patchy winds today will become more widespread early tomorrow morning, with moderate locally strong and gusty winds expected into tomorrow afternoon. No lightning is expected today, however tomorrow is a bit more of a challenge. Some convective potential shows up over eastern regions of the Cassiar Zone for tomorrow afternoon as the upper trough tracks across, however it seems not all the bits are aligning quite perfectly. At the moment it's considered enough of a risk that it bears mentioning and will have to be monitored. Lightning is expected to come with precipitation, however on the lesser side of accumulations.

Saturday: A mix of sun and cloud. Winds becoming south to southwesterly 10-20 km/h with afternoon gusts to 35 km/h. MAX TEMP: 21 to 24 C. MIN RH: 20 to 35%

QUESTIONS AND ANSWERS:

Fire Bans and Restrictions in the Cassiar Fire Zone

For more information visit <http://bcfireinfo.for.gov.bc.ca/hprScripts/WildfireNews/DisplayBan.asp?ID=586#CampfireBans> Currently, open burning and campfires are prohibited in the Cassiar Fire Zone.

Picking morel mushrooms from the 2018 wildfires

Check with local First Nations to inquire if a permit is required to access the area for mushroom picking.
