FIRE NAME	FIRE SIZE:	FIRE STATUS:
R90376 Black Angus	Estimated 1,800 has	Out of Control

RESOURCES:

There are currently 48 firefighters assigned to this incident. In addition there is a 14 person Incident Management Team and 4 helicopters shared between R91947 2018 holdovers and this wildfire .

UPDATES:

Today, crews will continue to mop up the west flank extending hose lays along the north and south flanks. Crews will continue to assess and fall dangerous trees as they move into new areas of the fire..

Yesterday, fire activity was minimal which allowed crews to build control lines and set up a hose system along the western flank. They also were able to build helicopter pads so crews can have better access to the fire.

This fire can be seen from Watson Lake and Lower Post. However, no values are at risk.

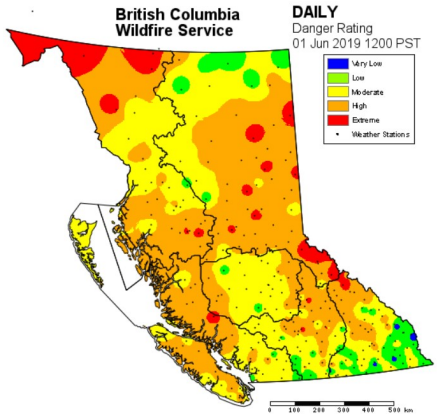
FORECAST:

SYNOPSIS: An upper trough goes through the north today, with a quick upper ridge then building in overnight through the southern regions of the Fire Centre. Temperatures have fallen back to more seasonal values for today through most of the Fire Centre, with the exception being the north which is seeing below seasonal values as a result of an upper low associated with the trough tracking through. Temperatures will remain just below seasonal through most of the Fire Centre for tomorrow as lingering cooler air will be present. Winds will be the bigger story for today, with a strong west/southwesterly gradient setting up over the Fire Centre which starts to slowly drift northeastward overnight maintaining some winds for the north. Winds tomorrow will continue to gradually diminish through the day, with lots of light and variable/default winds likely for the afternoon. Risk of lightning exists for the northeastern corner of the Fire Centre today, then again tomorrow near northern boundaries. Isolated strikes are possible, and will come on the dry'ish side with little precipitation if they do form

Sunday: Cloudy. Wind becoming northwest 20 km/h late this afternoon. High 15. UV index 4 or moderate

FIRE DANGER RATING



QUESTIONS AND ANSWERS:

Fire Bans and Restrictions in the Cassiar Fire Zone
