

Lytton Complex

(K70804 & K71086)

FIRE SIZE:

7723 hectares (mapped)

FIRE STATUS:

Out of Control

RESOURCES:

There are 47 firefighters, 8 helicopters, and 7 pieces of heavy equipment working on the Lytton Complex. Additionally, 2 Structure Protection Specialists, 2 Office of the Fire Commissioner Agency Reps, and 3 structure protection Task Forces are assigned to the Lytton Creek Complex . More crews are expected today.

UPDATE:

The new fire size is due to more accurate GPS mapping of the fire perimeter. The perimeter between the George Road (K70804) and the Lytton Creek (K71086) are now clearly defined on the interactive map where the south end of the Lytton Creek wildfire has burned to the north edge of the George Road fire.

Some growth and high fire activity occurred 8km north of Lytton along Highway 12 on July 4, 2021, when winds switched to blow from the north. There was mapped growth of 38.6 hectares between the Fraser and Highway 12 near the switchback. No major structures were impacted as of 22:00 July 5, 2021.

The spot growth on the west side of the Fraser (from July 2, 2021) is now approximately 40 hectares. Crews and air resources are assigned as a priority to this area. Crews are also working to protect structures along HWY 1 and 12, and to support fire control operations as needed.

Crews and helicopters are working on the northwest and northeast sides of the fire. The excursion across the Fraser River will remain a priority. The northern most point of the fire along Highway 1 is the other top priority for firefighters. Crews are working in the area, supported by air resources and heavy equipment, to guard against further fire spread.

Area Restriction:

An area restriction is in place as of July 3, 2021 for an area over the Lytton Complex area. This is NOT an evacuation alert or order. Under this order and Section 11(2) of the Wildfire Act, a person must not remain in or enter the restricted area without the prior written authorization of an official designated for the purposes of the Wildfire Act, unless the person enters the area only in the course of:

- travelling to or from his or her principle residence that is not under an evacuation order;
- travelling to or from private or leased property for the purposes of accessing a secondary residence or recreational property that is not under an evacuation order;
- travelling as a person acting in an official capacity;
- travelling for the purpose of supporting wildfire suppression activities; and
- engaging and/or participating in agricultural activities pertaining to livestock or vineyard management on private or leased property.

Note: The area restriction in place currently has an expiry date of October 15, 2021. However, once the area is considered safe for entry, the BC Wildfire Service will rescind the order.

The information on this map was compiled by the TNRD for regulatory and internal reference purposes only. No representation or warranty is made as to the accuracy of the information.
