EVACUATION ALERT RESCIND

SHESTA LAKE AND PUNCHAW AREA – ELECTORAL AREA ‘C’ and NAHLQUONATE 2 AND DEEP CREEK 5 – NAZKO FIRST NATION July 20, 2021 – 14:00 hrs

The Regional District of Fraser-Fort George in collaboration with Nazko First Nation has rescinded the evacuation alert issued on July 15, 2021, due to recent precipitation and success in establishing control lines around the wildland fires located in the Shesta Lake and Punchaw area including Nahlquonate 2 and Deep Creek 5.

BC Wildfire crews have made good progress on these wildfires and are not anticipating an evacuation alert to be necessary at this time. The public is urged to continue to exercise extreme caution with sources of ignition, and implement FireSmart principles around your home and property.

Information about wildfires across the province is available on the BC Wildfire Service website at:
<http://www2.gov.bc.ca/gov/content/safety/wildfire-status>

For more information on emergency preparedness visit the Regional District of Fraser-Fort George website at www.rdffg.bc.ca or call 1-800-667-1959.
