WILDFIRE UPDATE

SPARKS LAKE (K21001)	FIRE SIZE: 58,172 hectares (estimated)	FIRE STATUS: Out of Control

Sparks Lake July 12, 2021

OBJECTIVES:

Today, crews are carrying out a planned ignition on mount Uren. Once the planned ignition is complete, the entire southeast flank will have containment lines. Suppression efforts on all fires will continue while resources will be moved around as objectives are achieved and priorities shift.

Crews successfully completed securing thee fire perimeter along the east flank from Tranquille Road to Frog Lake. South Carbine Hill is being monitored and all excursions south of control lines are being extinguished. Structure protection specialists are working in the Red Lake, North Gisborne, Vidette, Enright Lake, Bonaparte areas to triage structures and set up equipment.

Crews continue to work on patrol and mop-up in the Deadman Valley and will work on establishing containment from Sabiston Lake north towards the fire perimeter. Equipment has completed work around Mount Uren to build control lines and crews will use direct attack methods from Sabiston Lake, south around Mount Uren. Crews are carrying out direct attack from Smith Camp Road to Steam Shovel Road. Helicopters have been bucketing in the Tobacco Creek area in advance of crew arrival. As areas in the south are being secured, crews will move up along the eastern flank to create control lines and direct attack where possible towards the north of the fire.

RESOURCES:

Firefighters – 110

Heavy Equipment - 41

Helicopters – 10 assigned

EVACUATION ALERTS AND ORDERS:

An Evacuation Order was issued on July 20, 2021 by The Thompson-Nicola Regional District (TNRD) for seven properties in Electoral Area "E" (Bonaparte Plateau) and Electoral Area "J" (Copper Desert Country). Evacuation Orders for an additional 289 properties and Evacuation Alerts for an additional 298 properties remains in place. More information is available here: Thompson- Nicola Regional District.

The Chief and Council of the Skeetchestn Indian Band have implemented an Evacuation Order for their community as of 10 pm, July 2, 2021.

AREA RESTRICTION ORDER:

The BC Wildfire Service has updated the Area Restriction Order in the vicinity of the Sparks Lake wildfire that was implemented July 26, 2021. The size of the area restriction reflects the continued need to protect the public in areas where there are ongoing fire suppression activities. Find the map here: http://ow.ly/auCv30rP3sY

REGISTER FOR EMERGENCY ALERTS:

The Thompson-Nicola Regional District has chosen Voyent Alert! to serve the region to provide residents with critical emergency information. Voyent Alert! is a multi-purpose communication service used to send alerts to residents, businesses, and visitors during critical events like fires or floods as well as for relevant day-to-day communications. Registration is FREE, simple and totally anonymous. For mobile app alerts, download and install the *Voyent Alert!* app from the Apple or Google Play stores For email, text message, or voice call alerts: https://register.voyent-alert.com

Personalized Communications: Voyent Alert! provides informative communications. Critical information such as the distance and direction from an incident, time of intercept and preferred evacuation routes from your tracked locations.

Track Multiple Locations: Voyent Alert! allows you to create and track multiple locations such as “Kids School” or “Mom’s House”. Any event or communication related to your tracked locations will be forwarded to you along your preferred communication channel.

No Message Fatigue: Voyent Alert’s smart alerting capabilities ensure that you will only get notified when a communication is relevant to you or one of the locations you are tracking.

Communications Your Way: Receive alerts over a wide variety of communication channels including mobile apps, text/SMS alerting, email or voice calling You can register for all or one of them.

Privacy is Paramount: Registration is anonymous, and no information volunteered or derived is shared or used for marketing or data harvesting purposes. Locational information from your tracked locations is only used to determine its proximity to an alert event and to provide critical context within the communications (such as distance and direction).

Leaving is Easy: Both mobile applications and web-based accounts provide access to an unsubscribe feature accessed via the menu icon on the top right of the screen/page. If the service isn’t working out simply click on “Unsubscribe” button.
