Disclaimer:
Wildfire perimeters for the current fire season, including the most recent wildfire activity, are updated frequently by sources. The data is extracted from operational systems, mainly to the public map. Wildfire data may not reflect the most current information, therefore should only be used for reference purposes.

Wildfire data from the incident is updated when perimeters are measured or reported by ground or aerial observers. The data is intended for reference purposes only and should not be relied on as accurate for the exact location of the fire perimeter, nor for acreage reporting. The scale of current fire activity within the mapped fire perimeters can vary widely.
