

The following information is current as of	August 5, at 08:00
Incident name and number	Goode's Creek K51242
Incident Commander	Reg Trapp
Contact information	Information Officer: Ellie Dupont Email: Ellie.Dupont@gov.bc.ca Phone: 250-713-1846 Hours: 8:00 a.m. – 8:00 p.m. only
Fire camp	Okanagan Complex Fire Camp
Incident overview	Currently mapped at 1370 hectares in size. There are 10 personnel on site today. 5 helicopters are available as needed. This fire is classified under control.
Weather forecast	We expect warmer temperatures 30° – 34°, as the ridge is expected to persist Monday through Wednesday. Winds NE- NW, 10-20 km/hr.
Fire behaviour prediction	Areas within this fire may not have received much rain; therefore fire behaviour may increase in these areas where slope and fuels provide the right conditions. The possibility of gusty winds in the afternoon could also lead to increased fire behaviour.
Challenges	Ground crews are again working in extreme temperatures. Crews will maintain situational awareness of hydration, snake dens and dangerous terrain.
Yesterday's achievements	Extinguished smoking hot spots visible from the highway. Moved equipment and resources to achieve the highest benefit for suppression strategies. Demobilize equipment where possible.
Today's objectives	Find and extinguish all hot spots identified from last night's scan. Reorganize crew objectives where necessary. Demobilize equipment where possible.
