Inspection

Date of Inspection 2017-08-01
Inspector Name Tyson Miller

Recommended Next Inspection Year 2018

Inspection Company MFLNRO

Inspector Comments

P.Eng Comments

Could not access the site due to a road washout. The structure has not been inspected in 3 years and at that time the structure was load rated 10 tonnes. Because the structure has not been inspected in 3 years I recommend a 0 tonnes load rating until it can be accessed and inspected again. Regardless, the structure requires replacement prior to any industrial activity.
