Crown Grant
Produced By: Chilliwack Forest District
Date: March 3, 2010
Scale: 1:30,000
0 205 410 820 1,230
Meters
Based on, "Terrain, Terrain Stability and Sedimentation Potential Durieu Ridge Map Area" prepared by Denny Maynard & Associates Ltd. North Vancouver B.C. September, 1995".
Please note that this colour themed map is an overview that is not intended for operational purposes. It does not distinguish between H and L categories within a terrain class and may generalize areas where the original map provides a more detailed breakdown.
Please refer to the Denny Maynard September 1995 mapping product for further detail.
