Revelstoke Riding

Whether you are looking for cross country or downhill riding Revelstoke has it. The cross country riding goes from buff flowing singletrack to tight technical rocks and roots. The downhill riding will have you returning lap after lap trying to memorize each curve, berm or steep roll.

RESPECT XC

- Respect Wildlife - Do not approach
- Etiquette - Wheels yield to heels
- Share the Trail - Uphill riders have right of way
- Pets - Cleanup and keep in control
- Environment - Stay on the trail
- Closed Trails - Respect trail closures
- Trash - Leave no trace

X-Country Trails continued

Keystone Standard Basin Trail

Looking for a unique epic ride? Head to Keystone for a spectacular ride in the alpine meadows. Do it in early August for spectacular alpine flowers. The usual turnaround is 11km in at the Standard Cabin. Trailhead is 50km from Trans Canada Highway on Highway 23 North, turn right on Keystone FSR road and continue for 18km to parking lot. Please remember it's the responsibility of the driver to travel at speeds that reflect the road conditions.

Mount Cartier Recreation Trail

The first 2.5km of this trail to a lookout has been used for many years as a great early season mt. bike ride as it is one of the first to melt out in the spring. The hardest of riders are riding/pushing up to the summit. Trailhead is 13.5km from Trans Canada Highway.

Frisby Ridge Trail

A truly great trail with magnificent views, abundant wildflowers, and excellent riding. This 12.9km trail climbs from a cutblock up through impressive mountain hemlock sub-alpine forest and into the alpine meadows. It crests on a rolling ridge with views in all directions, then dips down to a small lake and turns back. Trailhead is 6km from Trans Canada Highway on Westside Road, then left on Frisby Ridge road for another 9km. Please remember it's the responsibility of the driver to travel at speeds that reflect the road conditions.

Caribou Closure

The Frisby Ridge trail is closed annually until July 15 for the purposes of hiking and biking. By respecting the closure you will be helping to protect Mountain Caribou. If you should see one of these endangered species please keep your distance and do not disturb.

Downhill Trails

Boulder Mountain Trails

The trails on Boulder Mt. are specific to downhill mountain biking and offer good variety to be enjoyed by almost every rider. From a smooth flowing intermediate trail to more advanced single track, the trails can be both fun and challenging. Technical trail features (wooden structures) and jumps exist on some of the advanced trails and should be spotted by riders before attempting. Suitable equipment and caution are recommended when riding these trails. Trailhead is located 3km from Trans Canada Highway, then left on Jordan FSR road. Remember it's the responsibility of the driver to travel at speeds that reflect the road conditions. Drivers please drive with caution as there are a number of trail crossing on the road.

Boulder Mountain Trails

Trail Name	Technical Rating	Distance (km)

Martha Creek / Sale Mountain Trail

The Martha Creek (Sale Mt.) Trail is a spectacular 1580m/9km descent from alpine meadows to valley bottom. The trail is equipped with low and mid-elevation access points for early and late season rides, and the option for a 5000ft climb up logging roads to the top. Trailhead is 21km from Trans Canada Highway on Hwy 23 North, then right on Sale Mountain FSR road for 15km.

RESPECT DH

- Respect Wildlife - Do not approach
- Etiquette - Yield to slower rider
- Share the Trail - Downhill riders have right of way
- Pets - Cleanup and keep in control
- Environment - Stay on the trail
- Closed Trails - Respect trail closures
- Trash - Leave no trace
