

Licensee Consolidated OGMA Summary - Merritt and Lillooet TSA's

PLEASE NOTE: As of January 2019, OGMA spatial data for the Cascades NRD will only be available via the BC Data Catalogue, as per the link provided:
<https://catalogue.data.gov.bc.ca/dataset/old-growth-management-areas-non-legal-current>

OGMA Standards agreed upon for additions/deletions will continue to be used for the delivery of licensee's annual OGMA updates every Oct. 15th. Updates for both the provincial and local datasets will be maintained, the local data used only for internal management and tracking purposes.

October 2021 OGMA Updates – Inclusion into both the BCGW and Local Data datasets

- 1. Updated the “local data” OGMA dataset with Licensee updates provided annually by October 15, 2022.
 - **This dataset is used to produce the running totals provided below.**
- 2. Updated the corporate BCGW OGMA dataset with update provided annually by October 15, 2022.
- 3. Both TSA’s still have a few remaining OGMA’s in needed of review by Licensee’s for various reasons (<1ha polys/replacement needed/slivers/etc.), query for: **CHANGE_REASON LIKE '%review%'**
****Please try to limit the creation of sliver and small orphaned polygons!**

Lillooet TSA Totals		
Update Year	Yearly Net Change (ha) <small>Between Incursions & Replacements</small>	Total (ha) OGMA's
2011		74,927.5
2012-2014	-306.2	74,621.3
2015	+4.9	74,626.2
2016	+3.4	74,629.6
2017	+49.9	74,679.5
Pre -2018 BCGW Update	+33.1	74,712.6
2018 BCGW Update	+189.3	74,901.9
2019	+4.3	74,906.2
2020	+2.3	74,908.5
2021	+0.6	74,909.1
2022	-0.14 (-18.54 ha less then 2011)	74,908.96

Spatial OGMA’s loaded to the BCGW in 2011
2014 FLNRO "Deleted" missing OGMA incursions

2018 FLNRO corporate OGMA update for ALL pre-2018 updates, impacting ~270 OGMA polygons.
2018 FLNRO corporate annual OGMA update for 2018 Licensee incursions/replacements. Including 155ha in replacements for old Ainsworth incursions.
2019 FLNRO corporate annual OGMA updates.
2020 FLNRO corporate annual OGMA updates.
2021 FLNRO corporate annual OGMA updates.
(No updates provided by Interwest)

2022 FLNRO corporate annual OGMA updates.

Merritt TSA Totals		
2011		114,558.8
2012-2014	-132.0	114,426.8
2015	+50.4	114,477.2
2016	-24.8	114,452.4
2017	+2.9	114,455.3
Pre-2018 BCGW Update	+23.3	114,478.6
2018 BCGW Update	+53.7	114,532.3
2019	+58.4	114,590.7
2020	+16.6	114,607.3
2021	-0.3	114,607.0
2022	+1.11 (+49.31 ha more then 2011)	114,608.11

Spatial OGMA’s loaded to the BCGW in 2011
Pre-2012 Licensees managed data locally. 2014 FLNRO "Deleted" missing OGMA incursions

2018 FLNRO corporate OGMA update for ALL pre-2018 updates, impacting ~390 OGMA polygons.
2018 FLNRO corporate annual OGMA update for 2018 Licensee incursions/replacements.
2019 FLNRO corporate annual OGMA updates.
2020 FLNRO corporate annual OGMA updates.
2021 FLNRO corporate annual OGMA updates.

2022 FLNRO corporate annual OGMA updates.

2022 Cascades NRD Grand Total	+0.97 (+30.77 ha more then 2011)	189,517.07
----------------------------------	-------------------------------------	------------

Issues that need to be addressed

- Small/sliver/orphaned OGMA’s are often being created when incursions occur – shouldn’t these be addressed as part of the replacement process?

Comments

- Cumulative reduction of total OGMA’s over time due to minor incursions and other forestry related development (IPP, Mining, Hydro etc). **As long as the current trend of replacing more area then is deleted for major incursions continues, this is not an issue.**
