Disclaimer:
Fire perimeters for the current fire season, including both active and inactive fires, are acquired from various sources. The data is refreshed from operational systems daily. Fire perimeters are subject to change as more is known about the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received, but not always as the incident unfolds in real time. The information is intended for general planning purposes only and should not be used as an official measure. Area was digitized at various scales and may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
