Disclaimer:
Fire perimeters for the current fire season, including both active and inactive fires, are acquired from various sources. The data is refreshed from operational systems on a daily basis. Perimeters are not surveyed and reflect the current fire situation, and therefore should only be used for reference purposes.

Window data from the incident is updated when perimeters are received from the air crews and ground personnel. The information is intended for general reference purposes only and should not be used as a legal document. Data was acquired on the date shown on map. Fire change quickly. The levels of control fire activity within the mapped fire perimeters can vary widely.
