Disclaimer:
Wildfire perimeters for the current fire season, including the most recent mapping, may be supplied from various sources. The data is refreshed from operational systems on a daily basis. Perimeters may change as new data is collected that validates, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates may vary. This map is intended for internal use and planning purposes only and should not be relied on as accurate because fires are dynamic and circumstances may change rapidly. Fire sizes may be approximate and the Hectares and the support fire perimeters can vary widely.
