Dear Ian:

RE: Memorandum of Understanding (MOU) Water Bottling Plant

The Village of Clinton was requested to allow the usage of the well located at Reg Conn Park for monitoring purposes when the bottling plant project is being planned and for the long term should the project start production.

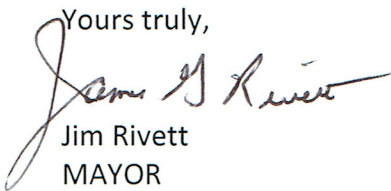

During our discussions it was agreed a Memorandum of Understanding would be an easy method to ensure there is communication between the Village of Clinton and Crystal Clinton Water Company so the public can be updated on the status of the aquifer.

We have provided two signed copies of the MOU for your review and then signature from the company.

If you could have Crystal Clinton Water Company sign both and return one to the Village of Clinton it would be greatly appreciated.

Thanks for your assistance and If you have further questions feel free to call the CAO Tom Dall.

Yours truly,

Jim Rivett
MAYOR
