Disclaimer:
Wildfire perimeters for the current fire season, including the Sparks Lake Complex, are derived from various sources. The data is refreshed from operational systems nightly to the public map. Wildfire data may not reflect the most current information and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general reference purposes only and is provided on an "as is" basis because fires are dynamic and circumstances may change rapidly. The accuracy of the mapping within the mapped fire perimeters can vary widely.
