This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Rehab parameters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The map is a snapshot in time based on the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates may vary. This map is intended for internal reference purposes only and should not be relied on as accurate for any other purpose. Fire perimeters and sizes will change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
