REHAB MAP

G2

Map Date: June 13, 2022

Perimeter Date: 2021-08-30
Hectares: 89626.7 HA

- Dry Seed (DS)
- Fence Damage - Point (FD)
- Gate No Damage (GND)
- Restore Draw (RD)
- Steep Slope >30% (SS)
- Other Rehab Treatment Type
- Pull Back (PB)
- Frequent Manual Completed
- Frequent Machine Completed
- Road - Modified Existing

This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Rehab improvements for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The information is intended for guidance for the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable, however the accuracy of individual fire perimeters and the information is intended for general purposes only. It should not be used as an accurate measurement tool, as data is subject to frequent change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
