Disclaimer:
Rehab perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The information is intended for guidance for the current fire situation, and therefore should only be used for reference purposes.

Welline data from the incident is updated when information is received from the IAP crews and the planning team. The information is intended for general purposes only, and should not be used as an accurate survey. This will depict the most current information as changes quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
