This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Wildfire perimeters for the current fire season, including the Fire Perimeter, are updated daily from multiple data sources. The data is extracted from operational systems nightly to the public map. Wildfire data may not reflect current conditions and should therefore should only be used for reference purposes.

Wildfire data from the incident is updated when particulars and the occurrence of individual fire updates are received. Wildfire data is intended for reference purposes only and should not be relied on as accurate for decision making. Fire perimeters are continually change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
