This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. Not all fires are mapped and some fires mapped roughly to the public map. Wildfire data may not reflect the current fire situation, and therefore should only be used for planning purposes.

Wildfire data from this system is updated when practicable and the occurrence of individual fire updates may vary. This data is provided for use for planning purposes only and should not be relied on as accurate because fires are dynamic and circumstances may change rapidly. The size and location of fires within the mapped fire perimeters can vary widely.
