Disclaimer:
Rehab treatments for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The data is intended for use as a guide for the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received. Users are encouraged to update and verify. The information is intended for general reference purposes only and should not be used for any purpose that may rely on its accuracy as it may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
