- Climate Station
- Fence
- Stock Trail
- Aquatic
- Fish - Observed
- Fish - Observed
- Lake
- Lake - Intermittent
- Private

This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Wildfire perimeters for the current fire season, including the perimeter of marked Fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The Ministry does not warrant that it is error free nor that it is complete, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates may vary. The publication of wildfire data is for general purposes only and should not be relied on as accurate because fires are dynamic and circumstances may change quickly. The location of fires relative to any other the mapped fire perimeters can vary widely.
