Disclaimer:
Fire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. Perimeters may not be an accurate fit for current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates may vary. This product is provided for reference purposes only and should not be relied on as accurate. Fire situations are dynamic and conditions can change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
