Index Map

This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Rehab measurements for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The information is intended for general use for the current fire situation, and therefore should only be used for rehab-related purposes.

The accuracy of the product is updated when personnel are on the ground or overhead fire systems will vary. The information is intended for general reference purposes only. Due to the dynamic nature of fire, fire behaviour, fires are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
