Index Map

This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Rehab parameters for the current fire season, including both active and inactive fans, are supplied from various sources. The data is refreshed from operational systems on a daily basis. This information is intended for general use for current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received. Accuracy of information may vary. The information is intended for general reference only and should not be used as an exact measurement tool. Boundaries may be subject to change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
