Index Map

This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Rehab boundaries for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The accuracy of the data is limited to the current fire situation, and therefore should only be used as a guide.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general planning purposes only. Fire boundaries, in particular those that are dynamic and circumstances may change quickly. The levels of current fire activity within the Fireguard fire perimeters can vary widely.
