Disclaimer:
Wildfire perimeters for the current fire season, including the most recent perimeters, are provided by operational sources. The data is refreshed from operational systems frequently throughout the day and may not accurately reflect the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when perimeters are received and processed, so the number of hectares will vary. The information is intended for general purposes only and should not be relied on as accurate for any specific area. Fire perimeters and hectares may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
