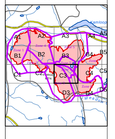
Index Map



This map may contain CONFIDENTIAL information; for INTERNAL use only

**Disclaimer:**
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources and may be updated frequently. Inactive fires are not highly to the public map. Wildfire data may not reflect the current fire situation, and therefore should only be used for planning purposes.

Wildfire data from this inventory is updated when practicable and the occurrence of individual fire updates may lag by days or weeks. Wildfire data is for planning purposes only and should not be relied on as accurate because fires are dynamic and circumstances may change rapidly. The size and location of fires within the mapped fire perimeters can vary widely.
