Index Map

This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Rehab numbers for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The data is considered to be accurate for the current fire situation, and therefore should only be used for reference purposes.

Please note that the Incident is updated when prescriptions and the occurrence of individual fire symbols will vary. The information is intended for general reference purposes only. Due to the nature of wildfires and ferocious, they are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
