Index Map

This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Rehab treatments for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The data is provided as a snapshot of the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received. Information will change as fires are mapped. The information is intended for general reference purposes only. Actual size and location of fires may vary with more accurate mapping. Fire perimeters change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
