Index Map

This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Rehab treatments for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The data is intended for general use for the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received, but not necessarily all changes will occur. The information is intended for general purposes only and should not be used as an accurate survey. This will depend on the scale of the map and the change quantity. The levels of current fire activity within the mapped fire perimeters can vary widely.
