Index Map

This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Boundary parameters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a regular basis. This map is produced for internal use for the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates may lag. This map is produced for internal use for the purposes only and should not be relied on as accurate. Fire perimeters may not be accurate and may change quickly. The levels of control for activity within the mapped fire perimeters can vary widely.
