Index Map

This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Fire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems throughout the day. The information is not quality assured for the current fire situation, and therefore should only be used for reference purposes.

Accuracy: Where the incident is updated when ground-based and the occurrence of individual fire spotters will vary. The information is intended for general reference purposes only. Please be aware that conditions are dynamic, fires are dynamic, and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
