Index Map

This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Weather generators for the current fire season, including both active and inactive fires, are supplied from various sources. Fire perimeters are digitized from aerial photos at night, to the public days. Wildfire data may not reflect the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received. Information on this map may change as well vary. The information is intended for general purposes only and should not be relied on as accurate. Wildfire data is a point in time representation and may change quickly. The levels of current fire activity within the square fire perimeters can vary widely.
