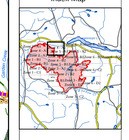
Index Map



This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Rehab Numbers for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. Please note that the data is subject to the current fire situation, and therefore should only be considered as a snapshot.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general planning purposes only and may not be suitable for others because fires are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
