Index Map

This map may contain CONFIDENTIAL information: for INTERNAL use only

**Disclaimer:**
Fire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources and are subject to change. Fires are added nightly to the public map. Wildfire data may not reflect all fires that have occurred. Therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general reference purposes only and may not be accurate because fires are dynamic and circumstances may change quickly. The levels or current fire activity within the mapped boundaries can vary widely.
