Index Map

This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Rehab parameters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The information is intended for use for the current fire situation, and therefore should only be used for rehab-related purposes.

Accuracy: While the incident is updated when personnel are on the ground, the accuracy of individual fire updates will vary. The information is intended for general planning purposes only and should not be used as survey because lines are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
