**Disclaimer:**
Wildfire perimeters for the current fire season, including the most recent perimeters, are subject to change and revision. The data is refreshed from operational systems daily, but may not reflect the most current information on the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received from various sources, but may not be 100% accurate. The information is intended for general purposes only and should not be relied on as accurate for specific locations. The status of wildfires is subject to change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
