Index Map

This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Fire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The accuracy of this data is limited to the current fire situation, and therefore should only be used for reference purposes.

Written data from the incident is updated when information is received, and will not always be current or real-time. The information is intended for general reference purposes only. Accuracy of the location and perimeter may vary, and should not be used as an exact measurement tool. Situations on the ground can change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
