- Lake - Intermittent
- Wetland
- Freshwater
- Lake
- Lake - Intermittent

Index Map

This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Wildfire perimeters for the current fire season, including the perimeter of wildfires that are now classified as being out, are derived from a variety of sources. The data is refreshed from operational systems nightly to the public map. Wildfire data may not reflect the most current information and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general reference purposes only and may not be accurate or complete because fires are dynamic and circumstances may change rapidly. Always check with the Forest Service before the trapped fire perimeters can vary widely.
