Mapsheet: 921064
TSA: Kamloops
UTM Zone: 10
Date Drawn: 1/18/2023
Scale: 1:10,000

Opening ID: 1251277
Opening No.: 921064 36
Location: VENABLES
Survey Area (ha): 59.3
Survey Type: RG
SU to Survey: 1

Survey Grid Map

921064 36

Unit: 24

Contract: SU24DTR001

The map displays a topographic survey area with a grid overlay. The grid lines are labeled with UTM coordinates: Easting (614400 to 616200) and Northing (5609100 to 5612000). The map shows several survey units (SU) outlined in red: SU1 (orange), SU2 (pink), SU3 (green), and SU4 (yellow). Various land use designations are indicated by different colors and patterns: Highways (yellow), FTEN - FSR (purple), FTEN - RP (blue), TRIM - Roads (black), TRIM - Trails (dashed black), Rail Line (black with cross-ticks), Transmission Line (black with dots), Named Stream (blue), Other Streams (light blue), Index Contour (grey), Intermediate Contour (dotted grey), Rec Trail (red dots), Target Survey Openings (red outline), RSLT - FC INV (blue outline), RSLT - Reserves (green outline), RSLT - Openings (grey outline), FTA Blocks (black outline), Forest Cover (green), Park or Protected Area (green with diagonal lines), Lake or River (blue), Swamp or Wetland (light blue with wavy lines), BEC Zones (purple outline), OGMA (green outline), Woodlot (brown outline), Pending FNWL (blue outline), Timber Licence (purple outline), Community Forest (pink outline), Private Land (orange outline), Rec Site (red outline), and TFL (red outline). The map also shows various features such as roads (RD), trails (TR), and streams (ST). Specific points are marked with coordinates and labels, such as (12814421F672256) and (12814421F672256). The map includes a legend in the top left corner, a scale bar (0 to 500 meters), and a north arrow.

Prior to surveying in the field the survey area is to be checked against RESULTS to confirm the appropriate SU and standards. If the standards in RESULTS are not appropriate, please use the provincial FFT default stocking standards. Roads and other mappable NP (such as NP swamp or rock) that are not yet identified on this map or accounted for in the area are to be reported in surveys, illustrated on the final map and reported in RESULTS. Non-mappable area is also to be identified by surveyors and used to net down gross area as appropriate and reported in RESULTS.
