Dear: Forest Enhancement Society of British Columbia

RE: Fuel Treatment Application for Nakusp

I would like to express my support as Fire Chief for Nakusp & District Fire Department in the Village of Nakusp and our Fire Protection Area with the Nakusp Community Forest in their application to the Forest Enhancement Society of BC for funding three fuel treatment units totaling 201 hectares in the WUI surrounding Nakusp, providing it meets the requirements of the FLNRORD District Manager, BC Wildfire Service and the Forest Enhancement Society of BC for wildfire risk reduction to achieve fire outcome objectives as defined by the BC Wildfire Service, and ensures the community is engaged in the implementation process.

These treatment units were identified as a high priority area in the Regional District Central Kootenay Community Wildfire Protection Plan for Electoral Area K and Nakusp.

Sincerely,

Terry Warren
Fire Chief/Emergency Program Coordinator
