

Allo Nora,

I support the RDCK application listed below as it aligns with the land manager priority related to wildfire risk reduction.

Julie Castonguay, RPF
Integrated Investment Specialist
Kootenay Boundary Region | Nelson

Subject: Letter/email of support from the district for FESBC

Hi Julie,

Should have asked for this earlier – would you be able to provide a brief email of support for our FESBC application:

1. Funding to complete prescriptions at Kaslo 231ha, Woodbury 58ha and Redfish 198ha; all are priority treatment areas as identified by the CWPP updates in areas D and E. This project is already substantially funded through UBCM and the community; we are asking FESBC to contribute \$20,000.
2. Funding for implementation of the FESBC funded Selous 137ha and Queens Bay 101ha prescriptions in collaboration with the licensee.
3. Funding for implementation of prescriptions in priority fuel treatment areas at Glacier 23ha, Howser 56ha and Kaslo 23ha. All tenure holders have been consulted and are supportive of this application.

Thanks

Nora
