To Castonguay, Julie FLNR:EX; 'Cindy Pearce'

 You replied to this message on 11/26/2018 1:35 PM.

Hi Cindy.

As stated earlier, we support the development of a wildland urban interface fuel break plan in principle. I think it is a little early to commit to staffing and resources until we have a better understanding of the process.

Allo Cindy,

As discussed this morning, I support your application to FESBC as it aligns with the land manager's priority of wildfire risk reduction around Revelstoke by planning and addressing some of the fuel types and fuel loading around Revelstoke. FLNRORD is supporting in principle the steering group committee and participation from a FLNRORD staff.
