APPLICANT INFORMATION

I (we) hereby apply for a Forestry License to Cut for the purpose of timber salvage on an area and in the manner set out in this application.

Legal name of applicant(s):	Address of applicant(s):
Client No. _____	
Prepared by:	Contact information:

Location (Map attached)	(Provide a location in reference to the nearest known geographic feature) (Submit map consistent with the prescribed standards) (Road name and nearest kilometre marker or distance from a known point)
Cause of timber mortality	(Identify the cause and approximate date of mortality. E.g. <i>Windthrow fall 2003</i>)
	BLOWDOWN: _____ 70% DECIDUOUS LEADING _____ PRIVATE PROP. FIRE HAZARD _____ DRY BELT _____ FSR HAZARD _____ HIGH VALUE RANGE FENCE _____ HOUSE LOG _____ OTHER (SPECIFY) _____
RESULTING STAND:	<1ha _____ >1ha FREE GROWING _____ SILV. LEVY AREA _____ N/A _____

Timber proposed for removal	Species and volume (m3)			Total
	Pli	Fdi	Sx	At
Dead or down				
In Danger				
Live (interspersed)				
Live (access)				
Total volume planned for harvest				

Area (ha.)	Comments

Note: For the purposes of this application "In Danger" means timber that is windthrown or beetle infested and expected to be dead within one year.

Application for Forestry License to Cut SMALL SCALE SALVAGE PROGRAM 100 Mile House Forest District

Updated: January 18, 2010.

Term requested for license(max. 1 year)	Comments (cite reasons for term requested if more than one season or outside normal practise for the area)
---	---

Transportation and scaling information: (Identify what roads will be used to transport timber, road permit number if applicable, planned point and method of scaling)

REVIEW AND APPROVAL INFORMATION

The following information is required for the Ministry to assess this application before it is approved. It is the responsibility of the applicant and the signing professional to ensure this information is complete and accurate. Some or all of the information provided may become part of a license issued as a result of this application.

LAND STATUS, FOREST PLANNING, MAPPING AND REFERRALS		
The applicant has conducted appropriate investigations to ensure that the area included in the application is vacant Crown land. The area proposed does not overlap or conflict with private land, Indian reserve, a park or protected area, and is not otherwise encumbered in a manner that would prevent issuance of a Forestry Licence to Cut. <i>When immediately adjacent to private property, survey posts or pins have been physically located on the ground.</i>		Yes ☐
This application is consistent with the District Small Scale Salvage Guidelines.		Yes ☐
Map(s) are attached and comply with the standards required.		Yes ☐
A map using IGDS or SHAPE format has been produced and a digital file has been submitted to the MOF, or is included with this application.		Yes ☐
The proposal has been referred to the appropriate major licensee or BCTS and documentation of the response has been included with this application		Yes ☐
The relevant major licensee or BCTS have been provided with an accurate location and assessment of potential impact on silviculture obligations from use of trails and landings in plantations.		Yes ☐ NA ☐
A field assessment has been conducted and all resource features that could reasonably be affected by this application have been assessed and considered in the preparation of the application.		Yes ☐
<i>The area has been checked for the following values and features and appropriate management consideration has been prescribed:</i>		
Other leases, licenses or permits		Yes ☐
Mining, petroleum or other sub-surface or surface tenures		Yes ☐
Wildlife tree patches		Yes ☐
Community watershed or domestic water sources		Yes ☐
Range tenures/fences –(referral required if harvesting within a grazing lease)		Yes ☐
Old growth management areas/wildlife habitat areas/wildlife features		Yes ☐
Classified Lakes/Recreation features		Yes ☐
Forest Ecosystem Networks		Yes ☐
Growth and Yield/Research Areas		Yes ☐
Cultural Heritage and Archaeological Resources		Yes ☐
Roads and trails		Yes ☐
Visual Quality		Yes ☐
Terrain stability		Yes ☐
Other(specify) _____		Yes ☐
Other(specify) _____		Yes ☐

POST-HARVEST STAND ATTRIBUTES

Upon completion of harvesting the identified area will retain a free-growing stand with a minimum stocking that is at least 20% greater than the applicable specified minimum standard as per the 'Reference guide for Forest Development' Plan Stocking Standards.	Yes ☐ NA ☐
All harvest areas will be < 1 ha. (including consideration of adjacent areas)	Yes ☐ No ☐
A silviculture levy must be applied to the license	Yes ☐ No ☐
The operations proposed under this application will not materially reduce terrain stability on the area or on adjacent areas.	Yes ☐ NA ☐
<i>Adequate Wildlife tree retention will remain post harvest as per section 66 of FPPR.</i>	Yes ☐ NA ☐
	Yes ☐ NA ☐

BOUNDARY, ROAD, LANDING, AND TRAIL

The condition of existing access roads, landings and trails has been assessed and documented.	Yes ☐
Existing roads and landings are in a condition suitable for use without modification.	Yes ☐ No ☐
Access Trails are marked in the field and identified accurately on the map.	Yes ☐ NA ☐
Block boundaries are clearly marked on site and accurately mapped, in accordance with guidelines	Yes ☐

SMALL SCALE SALVAGE PROGRAM
100 Mile House Forest District

Updated: January 18, 2010.

RIPARIAN MANAGEMENT

All streams are correctly classified and mapped.	Yes ☐ NA ☐
Appropriate timing for removal of any skid trail crossings of streams and non-classified drainages is identified.	Yes ☐ NA ☐
Harvest in RMA's is consistent with Guidelines	Yes ☐ NA ☐
RPZ's and applicable RMZ's have been marked in the field to prevent harvest	Yes ☐ NA ☐

OTHER CONSTRAINTS

The harvest is to occur only during winter conditions	Yes ☐ No ☐
The application area has been field assessed by an archaeologist and no further archaeological work is prescribed.	Yes ☐ NA ☐
An Archaeological assessment has been conducted and attached.	Yes ☐ NA ☐
A CMT assessment has been carried out	Yes ☐ NA ☐
OTHER:	Yes ☐ NA ☐

RISK RATING

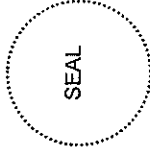

Estimate the risk of the proposed operations on this area (high, moderate or low) by considering the values at risk and the potential impact of the activity planned activity or the consequences if a contravention occurs.	High	Medium	Low
Risk to the road, or road users	☐	☐	☐
Riparian features	☐	☐	☐
Stocking concerns (quantity or quality of regeneration)	☐	☐	☐
Soil Sensitivity / Site Sensitivity	☐	☐	☐
Terrain stability	☐	☐	☐
Private Land/ Indian Reserve / Other Tenures	☐	☐	☐
Archaeology	☐	☐	☐
Overall Risk Rating	☐	☐	☐

NOTICE OF SPECIAL CONCERNS FOR DISTRICT MANAGER OR FOREST OFFICER TO CONSIDER

Include any requests for exemptions or variances
