

SUMMARY OF CURRENT INFESTATION

Star Probe had one code 3, 4 code 5 attacked trees. Walk in line found 1 code 1 attack, may have been more but in Polygon 2016-BLA-0135 which was dropped.

LIGHT ATTACK

ACCESS

Fromn Truck walk 1.8km at 250 degrees, walked through dropped polygon 2016-BLA-0135 on way to site where found Code 1 and potentially more

SITE FEATURES (Topography, Terrain, Timber Types, Age)

Moderate slope

SIZE, BOUNDARY and PATTERN OF INFESTATION

Isloated attack with one code 3 mixed amongst code 5's

INCIDENCE AND SEVERITY OF ATTACK

Low attack density and only one probe line shows high mean larval density. Isolated attack.

RISK OF BEETLE SPREAD and SURROUNDING SITES

Minimal one code 3 attack found, older attack, On way into polygon notice code 1 attack in Polygno not surveying (BLA-0135), may be more to the east of probe site.

ACCESS, OPERABILITY and INTEGRATED RESOURCE MGMT ISSUES

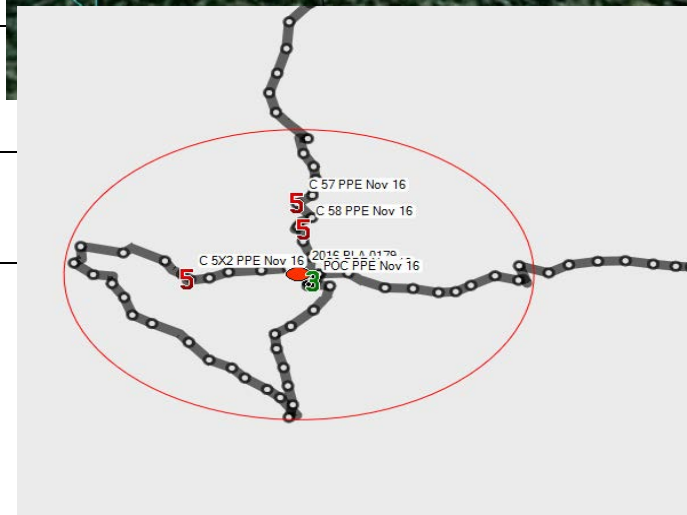

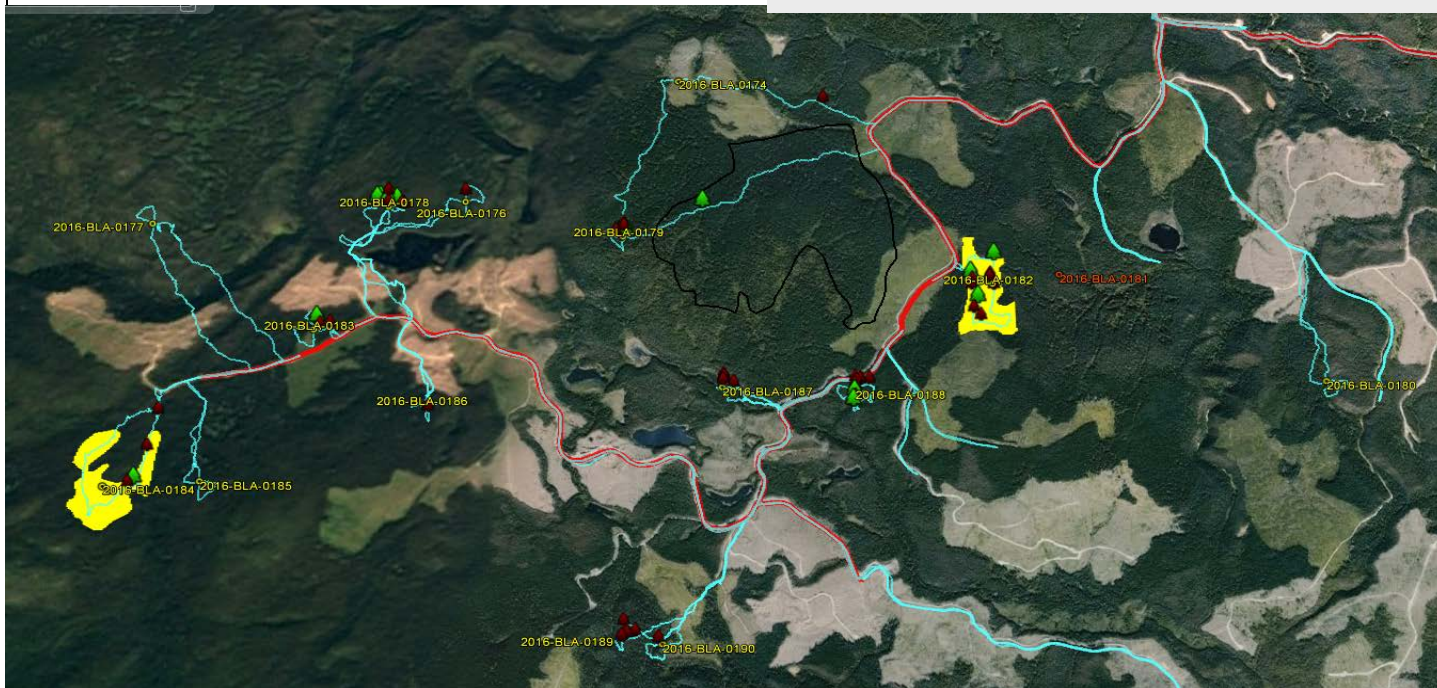

Long walk in.

RECOMMENDATIONS

OPTION 1 NO ACTION

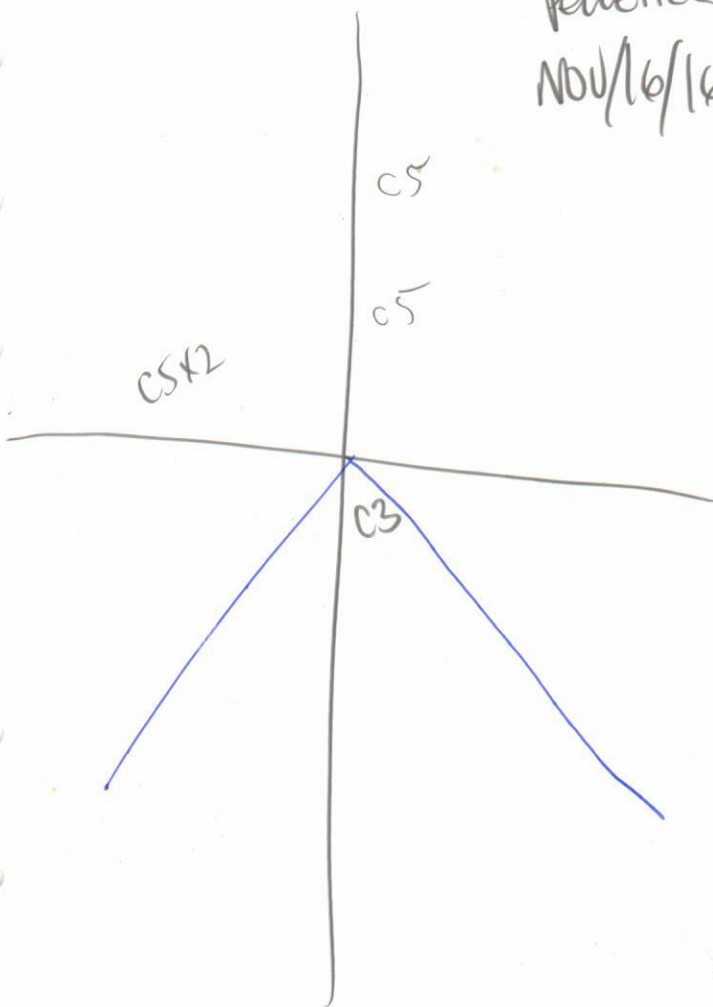

Adjacent to Polygon 2016-BLA-0135. Long walk in .

OPTION 2

064
