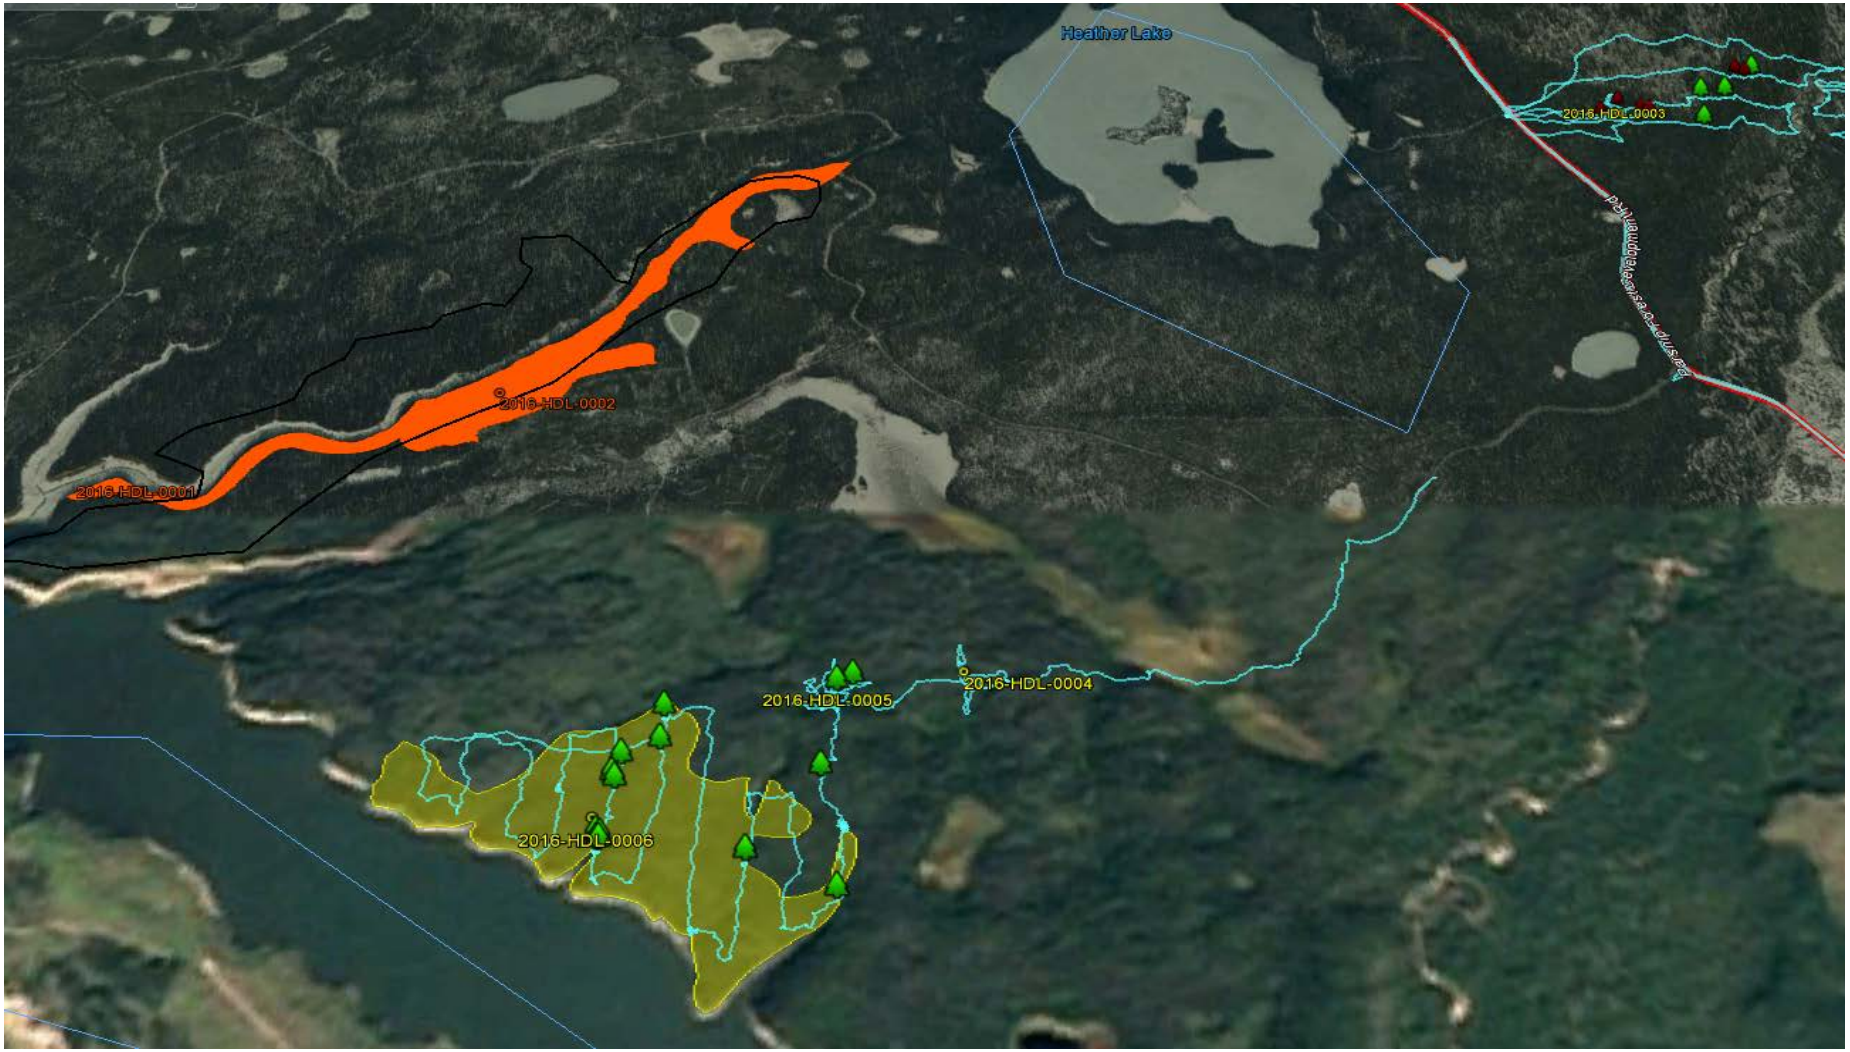
93O06	81	2016-HDL-0004	0.25	Heather Dina Lake	0 CODE 1-4	0 CODE 5-6	NO ATTACK	NO ACTION	
93O06	82	2016-HDL-0005	0.25	Heather Dina Lake	2 CODE 1-4	0 CODE 5-6	LIGHT ATTACK	FALL AND BURN	MONITOR
93O06	83	2016-HDL-0006	34.80	Heather Dina Lake	8 CODE 1-4	0 CODE 5-6	LIGHT (Moderate) ATTACK	FALL AND BURN	MONITOR


Heather Dina Lake area has attack to the west in HDL-0006 and HDL-0005. These sites would benefit from treatment but access is quite poor having crews walk in 2.0 Km. A fall and burn treatment might help to slow the 2017 flight but other areas nearby to the east include the tony which is just besided HDL-0003 which has moderate to heavy attack. Treating these trees may help the spread in the immediate area. Site HDL-0004 did not have any signs of attack. Sites HDL-0001 and 0002 were inaccessible at time of contract. Open stands with Aspen throughout.
