All Major Licensees

Dear Sir/Madam:

The Lakes Forest District would like to provide licensees who operate in the Lakes Forest District with clarification on the issue of the Ootsa Lake Scenic area .

When the District Manager made known scenic areas in his letter of May 28 1996, the intent of the Ootsa Lake scenic area was that it covers the entire Nechako Reservoir within the Lakes TSA which includes, Ootsa, and Nataalkuz Lakes, Cheslaslie Arm, Euchu Reach, and Intata Reach.

A map showing all visual polygons for Ootsa Lake scenic area covering the reservoir should be available by March 1999.

For future reference the scenic area Ootsa Lake will refer to the entire Nechako Reservoir, except for Tetachuck Lake which stands as its own scenic area

Please ensure that parties responsible for operational planning within this area are aware of this notice.

Yours truly,

R. A. Murray
District Manager
Lakes Forest District

cc: Mike Watson - SBFEP Officer
